The Cherokee County Sheriff's Office is the largest county owned facility that operates 24/7. While it is no more important than any other division it is used more frequently and that creates the need for more maintenance. We have a combination of 9 restrooms on the Sheriff's Side, four of which have showers. There are a total of 17 offices. One public lobby. A large squad room which Deputies work from. A reception area and hall way in the Investigations division. A conference room, an employee breakroom and 911 dispatch. We also need regular cleaning and waxing of the common halls in the office. The traffic is constant and the majority of employees wear boots which is tougher on the tile flooring. The walls of common areas such as hallways could use touch up paint on a rotation. We always have the need for lightbulbs to be changed and filters in the HVAC units.

While we can utilize inmate labor in cleaning the Jail it is not effective for the Sheriff's Office. Because bringing an inmate to the Sheriff's Office requires a guard to oversee them. Thus removing an Officer from the Jail. It is no secret that inmates are creative, and will have associates drop off contraband in public bathrooms. Also we cannot allow them in any office or area that contains confidential or victim information.

Coates' Canons Blog: “Good Cause” and Late Property Tax Exemption Applications

By Chris McLaughlin

Article: <https://canons.sog.unc.edu/good-cause-and-late-property-tax-exemption-applications/>

This entry was posted on September 28, 2015 and is filed under Finance & Tax, Property Taxes

The Machinery Act rarely gives local governments much discretion. Most often our property tax statutes proscribe exactly what should happen in a given situation.

There are a few tax collection situations in which local governments have flexibility, however. Consider the unfettered authority of tax collectors to waive the 10% penalty for bad checks (G.S. 105-358) or the option for local government boards to waive discovery bills. G.S. 105-312(k).

Another of these discretionary situations is the topic of today's blog post: decisions by governing boards to allow late exemption applications for “good cause.” G.S. 105-282.1(a1). That statute does not define “good cause”, leaving it up to local governments to decide for themselves what facts justify late applications.

The rules concerning exemption and exclusion applications are happily confined to a single statute, G.S. 105-282.1. (For our purposes, the terms “exemptions” and “exclusions” are interchangeable. To keep it simple, I'll just call them all “exemptions.”)

A precious few exemptions are automatic, meaning that the taxpayer is entitled to a property tax break without the need to file an application or take any other action. These “automatic” exemptions include government property (G.S. 105-278.1), inventories (G.S. 105-275(32a), (33) & (34), and, importantly, our 75-inch flat-screen televisions and Coach K bobblehead collections (non-business personal property, G.S. 105-275(15).

A larger number of exemptions require only a single application. Once approved, the exemption remains in place until the county learns of a change in the property's use or ownership or other criterion for eligibility. Sometimes that information comes voluntarily from the taxpayer, but more often it comes in the form of a discovery made by the county.

The list of single-application exemptions include religious property (G.S. 105-278.3), educational property (G.S. 105-278.4), charitable property (G.S. 105-278.6), residential property owned by seniors with limited incomes (the elderly and disabled exclusion, G.S. 105-277.1), and a couple dozen more.

Exemptions that are not automatic or single-application exemptions are, by default, *annual*-application exemptions. Examples include the circuit breaker (G.S. 105-277.1B) and the new provisions covering unsold improvements to residential and commercial property discussed here.

Most exemptions applications are due by the close of the listing period, which ends January 31 absent an extension by the county commissioners. G.S. 105-282.1(a). Residential property tax relief exclusion applications (circuit breaker, disabled veterans, and elderly & disabled) are due June 1. G.S. 105-277.1(c).

But those deadlines are not written in stone. G.S. 105-282.1(a1) states that “upon a showing of good cause by the applicant for failure to make a timely application” the governing board may accept late exemption applications up to the close of the calendar year.

What exactly is “good cause”? That definition can vary from county to county. Some governments may choose to accept “I forgot” or “I didn't know” as good cause for late applications. Others may be more strict. Governments might even be able to adopt different standards for different types of taxpayers. Commercial taxpayers who are expected to be more aware of the financial obligations of running a business might be held to a more demanding definition of “good cause” than elderly residential taxpayers, for example.

RESOLUTION TO REQUEST THAT GREAT SMOKY MOUNTAINS RAILROAD CONTINUE TO MAINTAIN JURISDICTION OVER THE EXISTING GREAT SMOKY MOUNTAINS RAILROAD RIGHT-OF-WAY BUT REDUCE ITS WIDTH TO 30 FEET

WHEREAS, Great Smoky Mountains Railroad has legal jurisdiction and regulatory authority over the Great Smoky Mountains Railroad right-of-way in Cherokee County, and

WHEREAS, the current right-of-way varies from 100 feet to 200 feet depending on the location of surveyed lines according GIS mapping available to the Cherokee County Tax Assessor, and

WHEREAS, private structures have been erected within the right-of-way over the years, and

WHEREAS, there is no justification or need for Great Smoky Mountains Railroad to possess ownership of greater than 50 feet (that being 25 feet in each direction from the center line of the track), and

WHEREAS, there is no justification or need for Great Smoky Mountains Railroad to possess right-of-way of greater than 15 additional feet beyond the edge of the 25 feet of ownership from the center line of the track, and

WHEREAS, on June 30, 2020, the North Carolina Department of Transportation approved reduction of their ownership to 50 feet (25 feet from center on each side) and an additional right-of-way of 15 feet on each side at the edge of the 25 feet ownership, via quit claim deeds to affected, bordering property owners.

THEREFORE, BE IT RESOLVED BY THE CHEROKEE COUNTY BOARD OF COMMISSIONERS:

The current and varying width of the railroad right-of-way exceeds any possible use requirements of the property by Great Smoky Mountains Railroad.

The excessive width of the railroad right-of-way prevents and/or limits legal property owners from exercising free use of their land.

Great Smoky Mountains Railroad should follow suit with the recent action taken by the North Carolina Department of Transportation, Rails Division by reducing their ownership interest to 50 feet (25 feet in each direction from the railroad bed centerline) with an additional 15 feet of right-of-way on each side at the edge of the 25 feet of ownership and made uniform along its entire length, and land removed from the right-of-way returned to the current adjacent property owners via quit claim deed.
